

Subject: County owned property leased to a third party...

This is the result of a Request for Public Information relating to Land the County owns, but is leasing privately to individuals for profit. Due to several misinterpretations of this request, I received this particular response from Ira Dove, Haywood County Manager, on 5/29/2015.

“You requested real property leases where the County owned the property and leased it to a third party. You received, to my knowledge, the real property leases that matched your request.”

[**Editors Note:** These files have been transferred to www.haywoodtp.net. The easiest way to access these files is to copy and paste each line (link) into your browser directly. These files are a portion of what I had requested, but are none the less, interesting].
