Subject: Aerial Photos of BeaverDam Industrial Park.

The following photos were taken today of the BeaverDam Industrial Park. Lift-off point was at the entrance to the county owned property. Altitude was about 150 feet, 50 feet above the cleared area.

Photos left in original resolution, so loading time is a little long.

This is where the County intends to rush through the sale of County Property to Regional Recycling Solutions.

and

<http://haywoodtp.net/pubII/151005%20a7%20RRS.pdf>

All kinds of red flags are popping up due to the rapidity at which the county is pushing this project through.

Heads up here!

Monroe Miller
Haywood County Taxpayer.

This shows the road leading up to the clearing, where Phase I will be located. Phase II and III are located past the clearing to the left.

The subsequent photos are taken from the same location, but rotated in direction.
