**Subject:** Jackee Brown, Wife of Waynesville Mayor Gavin Brown, Accident and Toxicology Report.

The following are the Accident Report and Toxicology Report from the wreck caused by Jackee Brown when she smashed into Ramsey's truck on Christmas Eve while DWI.

**Accident Report.**

?

**Toxicology Report.**

?

Yeah, I'd like to know where these are myself. I was only provided with the Arrest Report yesterday when requesting information on this incident at the WPD. Yet, in an article appearing in the State Run newspaper, the Mountaineer, in an article "DWI arrest made for Christmas Eve accident, By Lindsay Curtin | Dec 30, 2015" [re: <http://themountaineer.villagesoup.com/p/dwi-arrest-made-for-christmas-eve-accident/1463150>] Lindsay Curtin said: "Ramsey, 43, was accompanied by Cindy Ramsey, who was treated by EMS officials at the scene, according to the police accident report."

- How come Lindsay Curtin received a copy of the accident report and I did not?
- Where is the Toxicology Report that was ordered by Superior Court Judge Brad Letts, a prerequisite to have at hand prior to releasing the Arrest Report as Public Information?
- What was the Blood Alcohol Level?
- Where there any other drugs in her blood indicated by the Toxicology Report.
- Does this woman still have her drivers license, or has it been revoked, suspended or burned up?
