FAKE NEWS!

Subject: Fake News by dumb-as-a-brick Mountaineer reporter - Becky Johnson.

Open letter to Vicki Hyatt, Liberal Hack News Editor of the Mountaineer.

Vicki, don't you ever proof read **Becky Johnson's** stuff? Too late now, but take a look at **Becky Johnson's** attempt to re-write history.

Becky indicates to your readers that: **“But in the 15 years since the funding formula was adopted, the school system has accepted the built-in incremental increase of 2 percent.”**

WTF?

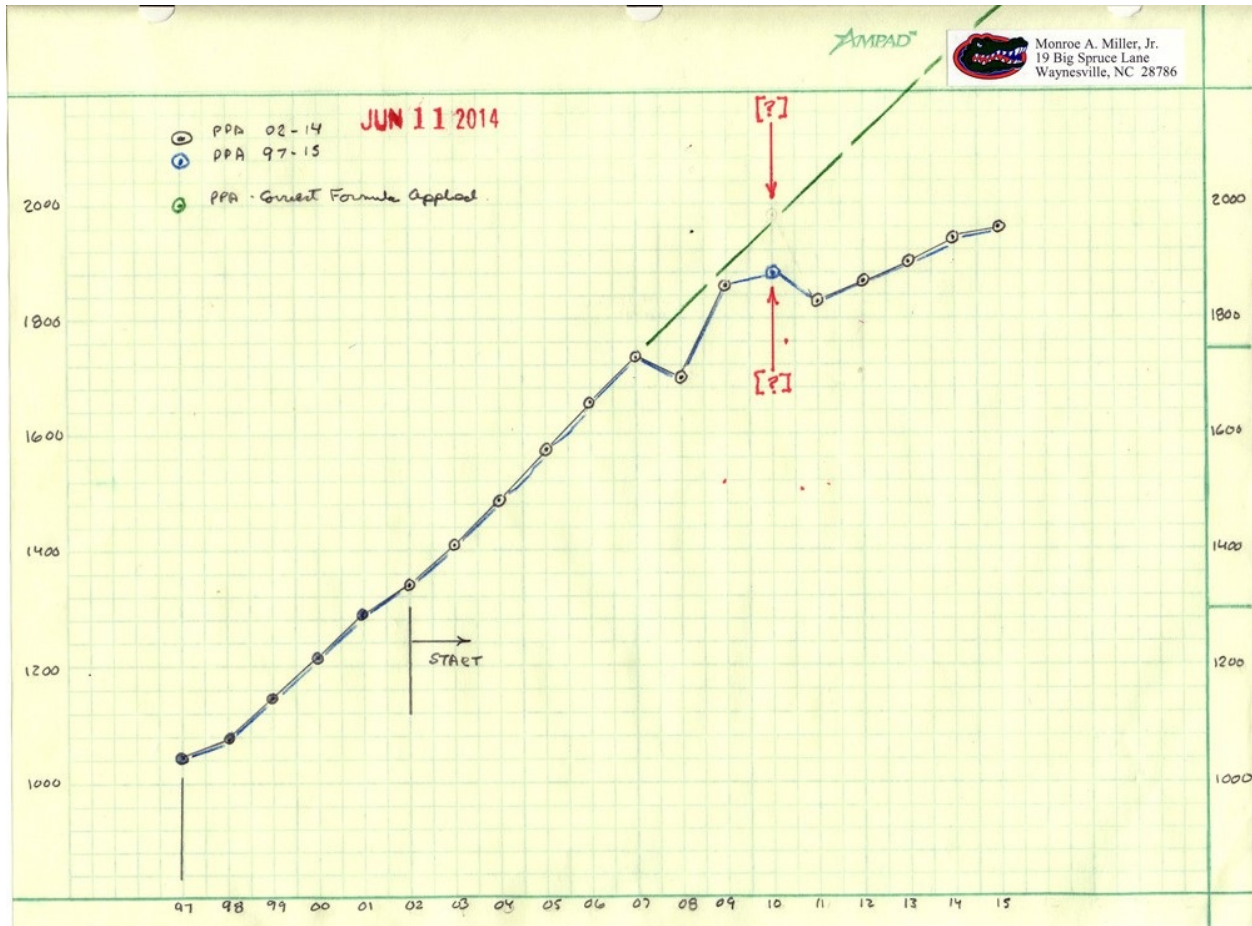

Did **Becky Johnson** forget about **Julie Davis** falsifying the PPA values of the Funding Formula and denying Haywood County Schools access to \$15,000,000?

See: [Flashback! The gift that keeps on giving. Cracked the Code on the Haywood County Schools Funding Formula! Julie Davis cooked the books \(i.e. falsified the calculation\). Denied School System \\$15 Million Dollars and should Resign or be Fired. 6/16/2014...](#)

Perhaps my graph (on very expensive Green Graph Paper) will refresh both your memories.

This is a graph indicating dollars approved each year from the Funding Formula Calculation. Notice a decrease in 2008, and a flat-line for the next three years. The new and improved funding formula was designed never to achieve the same rate of increase before **Julie Davis** falsified the PPA values.

If I were on the school board, I would be asking for \$15,000,000, instead of an increase of \$150,000.

Mr. Nolte, Mr. Putnam and Mr. Morehead. Here is my suggestions to raise the requested increase for Haywood County Schools. Have the County Commissioners -

- Fire Julie Davis,
- Fire David Francis,
- Pull the plug on the four (4) temporary FTE's that Greg Shuping snuck under the radar to hire more drivers,
- Get rid of Mark Pruett in the Erosion & Sediment Control Board (I thought he retired).

The first two recommendations will easily break loose funds for the requested increase.
