**Subject: E-mail dialog with Bernard Baruch Carman and Paul Yeager.**

Who is **Bernard Baruch Carman**? Google search results don't provide much information other than he may have been a Libertarian and plays the keyboard.

I received a curious exchange from this character the other day, with his introduction being that "*i got your email address from Paul Yeager, a ski buddy of mine at Cataloochee.*".

Next thing I know he is an instant expert of what transpired at the 9/22/2016 meeting at the HRA office where **Lynda Bennett** releases her "I'm a Never Trump" tirade, and writes a piece for First in Freedom Daily.

E-mails follow...

greetings Monroe,

i got your email address from Paul Yeager, a ski buddy of mine at Cataloochee.

he shared with me his published video of an audio portion featuring Lynda Bennet speaking during a recent GOP meeting. the audio leading up to this point was not included:

Lynda Bennett is a "Never Trumper"

Paul said he got the audio from you, so i'm writing to ask you for a copy of the audio leading up to the start of the audio included in this video.

thank you,

8-)

As you cannot treat me in a civil manner, I see little reason to consider what you appreciate.

It was you who decided to treat me as an enemy, not the other way around.

I'll be happy to consider what you do or do not appreciate as soon as you decide to treat me in a civil manner.
