Subject: Mountaineer Fake News Article, ‘Don’t listen to attack ads’, 6/21/2020.

The Mountaineer published an article which appeared on their web site this morning entitled “**Don't listen to attack ads**”, no author named.

Typically, when an article like this Fake News is published, it is usually written by the Liberal Hack News Editor, **Vicky Hyatt**. This one has her fingerprints all over it.

In the forth (4th) paragraph, the unnamed author says:

“... **On the other side, there have been attack ads portraying Lynda Bennett as a “never Trumper,” that rely on audio that has been doctored before the first primary. ...**”

I created the audio recording of **Lynda Bennett** screeching that she was a Never Trump. Those recordings (two parts) were copied directly from my recorder to my computer, and from my computer to my website, www.haywoodtp.net.

It is incumbent upon whoever wrote this article, and under any circumstances, for the Liberal Hack News Editor, Vicki Hyatt, to prove “**that rely on audio that has been doctored before the first primary**” is true. Otherwise, print a retraction (which will happen when [expletive deleted] freezes over).
