Subject: Sarah Henderson and Ira Dove Stonewalling, re: Janet Presson Request for Information.

Sarah Henderson and Ira Dove continue to stonewall questions from Janet Presson, regarding information and statistics DSS keeps for Haywood County. What are these people afraid of? The Truth?

Here is a continuation of a one-way email dialog with these two...

Mr. **Dove** and Ms. **Henderson**,

It has been eleven (11) days since Janet Presson originally made her Request for Public Information to you. You were previously (simultaneously)

- A County Manager
- Head of DSS
- A practicing lawyer in the state of NC, Bar Card # 22703 (That's holding three simultaneous public offices)

So, as a previous county manager, you should know that it is customary (for everyone except **Frank Queen**) that responses are expected within ten (10) days.

Please provide this information in plenty of time that it may be analyzed for presentation at the 2/6/2023 county commission meeting.

Thank you,
Monroe A. Miller, Jr.

My recommendation is for everyone in Haywood County, either pro or con, to flood the next county commission meeting on 2/6/2023, and take to the Public Comment podium and present your views. Even the quack doctor **Dr. Mark Jaben**, who ranks right up there with **Anthony Fauci**, could give his 2 cents.

Ira Dove has been notorious for ignoring questions from people, such as Janet Presson. When I discovered Janet Presson had made a Request for Public Information which seemed extremely reasonable to me, I suspected she might need a little extra horsepower. So, I made an additional Request for Public Information, verbatim to that Janet Presson had made, all in an effort to see if we could pry a response out of either of these two people prior to the upcoming County Commission Meeting on 2/6/2023.

Let's see if we get any cooperation.

Mr. Dove and Ms. Henderson,

This is a Request for Public Information - Haywood County Health and Human Services/Public Health Department records. Specifically, I am referencing and reduplicating a Public Records Request made by Janet Presson on 1/23/2023. See insert below.

Dear Mr. Dove:

Under the North Carolina Public Records Law, G.S. 132-1, I am requesting the following information contained in Haywood County Health and Human Services/Public Health Department records be provided to me by email:

1. How many Covid vaccines have been given by our health department? I'd like this info broken down by brand (Moderna, Pfizer, etc.)?
2. I would like the number of recipients broken down by age groups? Ex. 6 months-5 years, 6 years-12 years, etc. Please provide this information in whatever age groups the information is already contained in.
3. If the data shows how many recipients have received just one Covid vaccine, two, three, four, etc. I would like that as well.
4. Have there been any instances where a vaccine recipient has required medical care immediately following the administration of a Covid vaccine? If so, I would like that information.
5. Have there been any reports of vaccine injury or death for a Covid vaccine given by the health department?
6. What is the process for reporting a vaccine injury or death following a vaccine given by the health department? Specifically, does the Health Department get notified and if so, who at the Health Department is responsible for accepting and then documenting these reports or is the recipient or family informed how to report and where to report? Are they offered assistance with reporting?
7. I'd like copies of all info sheets/authorization forms, etc. given to Haywood County citizens when they receive a Covid vaccine. If there are different forms given to different age groups I'd like copies of each set.

If there are any fees for searching for or providing these records, please inform me first. However, I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest and will contribute significantly to the public's understanding of the Covid vaccine program in Haywood County. This information is not being sought for commercial purposes.

I would also like to make clear that the information requested is all required to be maintained by both Federal and State Law. I expect that all data provided will be sanitized to include no identifying or HIPAA protected information.

The law requires that you respond to and fulfill this request as promptly as possible. If you expect a significant delay in responding to and fulfilling this request, please contact me with information about when I might expect it.

If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.

Thank you for considering my request.

Sincerely,
Janet Presson, R.N., M.Ed.

I would appreciate an acknowledgment of this Request for Public Information.

Thank you,
Monroe A. Miller, Jr.

Mr. Miller,

Hope this finds you well.

This is to acknowledge your request for records. The matter will be reviewed and any records which are public, and which under the law are supposed to be released, and which meet the request, will be provided. If there are any charges for the same, you will be notified before the records are copied.

Best regards,

Ira Dove

Mr. Dove,

Thank you for responding.

It has been my/the practice with Haywood County, and all Municipalities, that upon any records request, when those records are scanned and emailed to me, there are no copy charges.

Since I am requesting the same records that Janet Presson requested on January 23, 2023, it is presumed that you started researching those records a week ago.

Looking forward to receiving those records.
